“Old for New - Creation of open campus style school ”

Brief

To design a complete secondary school including teaching spaces; sports facilities; community theatre and administration, to replace an existing 1500 pupil school.

Design Process

Creation of an open campus with a group of buildings focused on a central courtyard. Sustainability; energy efficiency and low running costs were key to the overall design.

Procurement

Framework agreement with Approved Contractor. Currently in for planning.

Construction

Framed structures incorporating passive ventilation; recyclable materials and sedum roofs.
